Como elegir

Cada eje cambia por separado: no es una mezcla final renderizada.

Base: C01 Grafito + T01 Geist + E02 Equilibrado + A02 Suave.

Elegir codigos, por ejemplo C05 + T02 + E02 + A01.

86 capturas nuevas + 2 referencias exactas en la galeria HTML.

Laboratorio Compose / Robolectric API 33; datos ficticios.

Sin APK, integracion productiva ni validacion fisica.

Las paletas tienen dos temas y escenas; los otros ejes, oscuro/acciones.

El PDF resume; la galeria offline permite ampliar todas las capturas.
